

Medical Consent Form

In the event that I am unavailable for the purposes of providing parental consent, I hereby authorize that medical attention be administered to my child, _____. I understand that the consent and authorization herein granted does not include major surgical procedures and are only valid during the WISE program. This consent form covers HIPAA compliance.

Family Physician: _____

Phone: _____

Physical conditions that the physician should be aware of (allergies, recurring illnesses, disabilities, chronic illnesses, current medications, any pre-existing medical conditions):

Date of most recent tetanus immunization: _____
(Booster recommended if more than 10 years have elapsed)

List the name of neighbor or relative who will assume temporary care of your child if you are not available:

Name: _____

Phone: _____

Parent/Guardian Signature: _____

Date: _____

- The University does not provide medical insurance for campers. In the event of illness or injury requiring treatment, hospitalization, and/or surgery, family medical insurance must be used.
- The University strongly recommend that Penn State camp participants be covered by some form of their own medical insurance.
- The signature of a parent or guardian granting medical permission to administer medical attention, should it be necessary, is required on the application form.

Release Form

I, the undersigned, individually and as parent(s) or guardian(s) of _____, a minor, ask that she be admitted to participate in the WISE program sponsored by The Pennsylvania State University. In consideration of such permission, I do hereby agree to release, discharge, and hold harmless The Pennsylvania State University, its officers, agents, and employees of and from all causes liabilities, damages, claims, or demands whatsoever on account of any injury or accident involved the said minor arising out of the minor's attendance at the program, field trips, or transportation and/or activities held in connection with the camp. I give permission for the Pennsylvania State University to use my child's photo for publicity purposes.

Parent/Guardian (please print) _____

Created at Penn State in 1994, The WISE Institute represents an innovative approach to cross-disciplinary interaction among engineers, humanists, scientists, and social scientists to promote the representation and diversity of women in the science, technology, engineering, and mathematics (STEM) fields.

The primary mission of the WISE Institute is to facilitate the entry and success of women in the STEM fields in an environment promoting gender equity by: coordinating our efforts throughout Penn State; creating opportunities for women of diverse backgrounds to thrive in the STEM fields; mentoring individuals; and promoting institutional and cultural change.

P&G

Women in the Sciences and Engineering (WISE)

Penn State Wilkes-Barre is proud to present its first Women in the Sciences and Engineering (WISE) program—Alternative Energy—for young women currently in grades 6-8.

This program, funded by Procter and Gamble's Live, Learn and Thrive grant, will be held on campus at Penn State Wilkes-Barre and led by Dr. Wes Grebski, Associate Professor of Engineering.

Students are asked to request a teacher's recommendation by submitting the teacher's name and work phone number on the registration form.

Wednesday, June 23 — 9:00 a.m.-3:00 p.m.
(Lunch provided)

What is energy, where does it come from and what is renewable energy? Find out how much energy is used in your house, what is an energy audit and what does an energy auditor do? Build a solar oven and a device for brewing tea using the sun.

We'll also explore different forms of energy such as solar, electric, hybrid, diesel, hydrogen and ethanol which can be used to power cars. Evaluate the efficiency of your family car compared to a car which uses alternative/renewable/clean energy. Design, build and race a solar car model.

Thursday, June 24 — 9:00 a.m.-3:00 p.m.
(Lunch provided)

Presenter: Dr. Jon Carson,
Associate Professor of Engineering

What is engineering? Learn about the different engineering fields, engineering vs. engineering technology, keys to success in studying engineering such as critical thinking and math skills, high school course selection, and the application of modern science as a tool in the engineering profession. Parents are welcome to attend this session.

Presenter: Gerri Wall, Career Counselor

Get a head start on potential careers in the engineering industry, discover career guidance resources through the internet, learn how to write an effective résumé, and find out how you can explore other opportunities in the fields of science, engineering, math, and technology.

Friday, June 25 — 9:00 a.m.-3:00 p.m.
(Bring a bagged lunch)

Take a field trip to Penn State Hazleton to see a photovoltaic power station, experimental wind turbine and a full-size solar powered car. From there you will see a working wind turbine farm.

This publication is available in alternative media on request. Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce. U.Ed. WBO 10-48

REGISTRATION

Note: Space is limited and on a first-come, first-served basis.

Federal law requires that institutions of higher education gather the following information regarding the ethnicity and race of its students and employees. Your individual information will be kept strictly confidential. The law only requires institutions to report aggregate totals for each category. Please check the appropriate responses regarding your ethnicity and your race:

1. Is your ethnicity Hispanic/Latino (Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin)?
 - Yes, Hispanic/Latino
 - No, not Hispanic/Latino
 - No Response
2. What is your race? (Select one or more)
 - White
 - Black or African American
 - Asian
 - American Indian or Alaska Native
 - Native Hawaiian/Other Pacific Islander
 - No Response
