A Commonwealth College academic internship combines an on-site supervised work experience with a structured academic learning plan for which a student earns academic credit. An internship is a work-based learning experience in a for-profit or non-profit setting. Some academic programs require an internship, while others offer students the option of scheduling an elective internship.

The student’s substantive work and responsibilities within the work organization create a professional experience that supports academic and career goals. The faculty internship instructor and work-site supervisor collaborate to promote the student’s critical thinking, observation, and reflection that foster intellectual, personal, and professional growth.

The work-site organization determines if monetary compensation is available for the internship. The length of the internship varies depending upon academic and work-site minimum requirements. Assuming a 15-week semester, one credit hour requires 3 to 4 hours per week of work-site activity and one hour of academic work such as journal writing, related research, or special projects.

An internship offers a student the opportunity to apply academic knowledge in world-of-work situations, to explore a career choice, and to begin to establish a network of professional contacts. The pre-internship preparation course that is required by the major must be completed prior to registering for any internship credits.
